

This block contains a dense grid of handwritten Japanese text, likely a list of names or entries. The text is arranged in vertical columns and horizontal rows. The characters are highly stylized and difficult to read due to the cursive nature of the calligraphy. The grid is organized into several sections, with some larger characters or headings interspersed among the smaller entries.

圓、三月... 住田... 止市

A vertical column of text on the right side of the main grid, containing larger characters and possibly a signature or date. The text includes the characters "圓、三月" at the top and "住田" and "止市" at the bottom.
